

Dear BRAZ-TESOLer,

It is with great satisfaction that we welcome you to Brasilia for the 15th BRAZ-TESOL International Conference in which you will play a leading role during the forthcoming four days.

We come together as professionals who work within the field of ELT in diverse areas and segments to discuss our key theme, "The learners' voice: creating a participatory culture". In a world in which we find ourselves with fewer and fewer opportunities to share, to hold conversations and to question aspects of our work ethos and practice, finding the time to spend four days with colleagues from different parts of Brazil and the world is a significant and precious choice in itself. It shows we believe in the future of our field. It shows we understand that change and innovation is possible. Yet most of all it shows a deep commitment amongst all of us to work collaboratively, to imagine new possibilities and to prepare ourselves for the growing demands imposed upon us as ELT professionals in the 21st century.

The year of 2016 is a landmark year for BRAZ-TESOL. We are celebrating our 30th anniversary as a teaching association in Brazil. In 1986, when it all got off the ground under the leadership of Bob Carrington and with the invaluable support and creative energy of Carmem Lucas, Anna Szabó, Sara Walker and Donald Occhiuzzo, their mission back then was to foster professional development within the field of ELT and promote research as well.

Thirty years on, under the leadership of 15 different presidents and a number of volunteers who have composed the Executive Board and Advisory Council, this mission is still strong and firm in its purpose. With 15 active chapters throughout Brazil and 7 SIGs as well, we have been able to keep our promise of working towards the professional growth of our members through local events, webinars, seminars, our quarterly newsletter and, of course, our International Conference.

Thus we arrive at the 15th BRAZ-TESOL international Conference in style. It's an event which will bring many exciting opportunities for reflection and discussion. Apart from the 254 concurrent talks and workshops, there will be 5 Pre Conference Institutes led by the Special Interest Groups (SIGs); 6 Plenaries and 5 Expanding Horizons Talks. The opening talk will be by our special guest Denise Abreu e Lima, providing an exclusively Brazilian perspective to the start of the conference. We are also very lucky to count on the support of TESOL International for kindly sponsoring Yilin Sun, TESOL's 2014-2015 President, who will start the conference on the first full day. This year we will host a Teaching Association's Forum, with the presence of the APLIs from all over Brazil and the BRAZ-TESOL Chapters to discuss the state of Teacher Development in Brazil and we hope to publish the findings of this Forum in a unique publication. We have joined forces with BrELT and eagerly await the panel discussion they are holding. In the evenings we look forward to the launch of the BRAZ-TESOL 30th Anniversary Scrapbook, a special Shakespeare Songs performance and also to countless other "happenings" planned by our partners and sponsors.

This whole conference has been planned and has come to life based on the collaborative work of a number of people. I cannot thank enough the BRAZ-TESOL Executive Board, General Council, and Academic Committee for all their effort and dedication. We have also had the extraordinary support of our host school, Colégio Serios, as well as the continuing partnership with publishing houses, and private and government institutions. Thank you all for your dedication over the years. Last, but not least, BRAZ-TESOL is about members and it is for our members. So, without your participation at our local and national events, without your membership, the Association amounts to very little. So thank you all immensely for having embarked on this journey. You may have been alongside us when it all started or you may have just recently joined, but you are indeed a valuable addition to the Association and we hope you enjoy the 15th BRAZ-TESOL International Conference as much as we have enjoyed bringing it to life.

Here's to many more years together.

*Valéria Benevalde França*

# What is **BRAZ-TESOL?**

BRAZ-TESOL is a non-profit organization of teachers of English. It is an affiliate of TESOL (Teachers of English to Speakers of Other Languages) International, a professional association based in the U.S., and an associate of IATEFL (International Association of Teachers of English as a Foreign Language), based in the UK. Both TESOL and IATEFL represent teachers, researchers, and materials developers throughout the world.

BRAZ-TESOL represents ELT professionals working in the private, public and freelance sectors in Brazil. It publishes a quarterly newsletter for its members, organizes Special Interest Groups (SIGs) and has Regional Chapters. It organizes a biennial international conference and a biennial national theme-focused Seminar, as well as one-day seminars, workshops, webinars and courses throughout the year in different regions of the country in order to stimulate professional growth as well as improve the standards of ELT in Brazil.

## **OUR MISSION**

To foster professional expertise and development in English language teaching and learning in Brazil.

## **OUR VISION**

To fully represent all segments of the ELT community within the country, and to be a service and resource provider for teachers and institutions.

# Regional Chapters of **BRAZ-TESOL**

BRAZ-TESOL aims to be truly representative of members from all over the country. Although our main office is located in São Paulo, more than half of our members nationwide come from other states, where the benefits of membership are consistently reinforced through local chapter events, SIG events, seminars and webinars.

During the 2015-2016 term, three new chapters were set up: Paraíba, Santa Catarina and Sergipe. In addition, five chapters are undergoing a process of renewal: Belo Horizonte, Natal, Rio de Janeiro, São Paulo and Salvador. The other chapters in Belém, Brasília, Curitiba, Fortaleza, Goiânia, Londrina, Manaus and Pernambuco have been very active the past two years.

All the work we do is conducted by local volunteers. It is quite likely that your local chapter needs your support and if there is no local or regional chapter in your area, it means there is an opportunity to start one. Why not get the ball rolling yourself? Contact the Executive Board or the Advisory Council for support and find out how you can organize it all.

There are regular updates on chapter activity in the BRAZ-TESOL newsletter and in our soon-to-be launched BRAZ-TESOL Portal. If you would like to let members know about events and opportunities in your area, please send a report to the newsletter editor at [newsletter@braztesol.org.br](mailto:newsletter@braztesol.org.br). Those of you involved in running local chapters may also like to join our group on Facebook: BRAZ-TESOL Local Chapter Committees.

The BRAZ-TESOL Annual General Meeting (AGM) is your opportunity to know more about your association and to help make important decisions:

## **BRAZ-TESOL ANNUAL GENERAL MEETING**

Any BRAZ-TESOL member is welcome to join us.

Sunday 17th July, from 12:30 to 14:00 - Mini Auditorium

## Special Interest Groups

# SIGs

## PRE-CONFERENCE INSTITUTES

One of the attractions of the BRAZ-TESOL International Conference will be the Pre-Conference Institutes (PCIs) run by five Special Interest Groups (SIGs). Why not participate in one of them?

### Bilingualism SIG

10:30 – 12:30  
and  
14:30 – 16:30

#### **BILINGUAL EDUCATION PROGRAM MODELS: A FRAMEWORK FOR UNDERSTANDING**

#### **FACILITATORS/SPEAKERS:**

Antonieta Megale, Bianca Palumbo, Camila Dias, Helena Camargo, Rita Ladeia and Silvia Beraldo

#### **PCI OVERALL AIM:**

Bilingual education is a broad term that refers to the presence of two languages in instructional settings. The term is a simple label for a complex phenomenon that depends upon many variables. In addition to this, there is no law regulating bilingual schools in Brazil. Therefore, Brazilian bilingual schools differ considerably from one another regarding linguistic and cultural goals, curriculum organization, instructional use of language and literacy process. In this sense, this one-day PCI aims at discussing effective practices in bilingual education programs which recognize and build upon the knowledge and skills children bring to school, such as multicultural instruction that recognizes and incorporates students' home cultures and also provides students with new possibilities to understand the world.

## Intercultural Language Education SIG

14:00 – 16:30

### CULTURE AND CREATIVITY: LITERATURE AND INTERCULTURAL LANGUAGE EDUCATION

#### FACILITATORS/SPEAKERS:

John Corbett, Nella de La Fuente and Malu Sciamarelli

#### PCI OVERALL AIM:

How can we encourage our learners to use their language skills to become reflective, cultural explorers? One way is to use literature, creative writing and performance to stimulate learners' imagination, curiosity and sense of wonder about the world.

Literary texts past and present challenge learners with different worlds of possibility, while creative writing helps learners develop skills of description while fostering lateral and critical thinking.

Combining classes in online intercultural communities across the globe also adds the possibility of writing and presenting work for international audiences.

This PCI session will demonstrate and discuss the use of literature and creative activities to explore culture, and participants will take away practical ideas for classroom use and course development.

## EduTech SIG

10:30 – 12:30

and

14:30 – 16:30

### LAYERS OF LEARNING WITH ED TECH

#### FACILITATORS/ SPEAKERS:

Carla Arena and Jeff Kuhn

#### PCI OVERALL AIM:

How can we design activities that are engaging for our students, and, at the same time, help them learn in deeper and more significant ways? The BRAZ-TESOL EduTech SIG PCI will offer practical ideas and useful tips to help you use the connective and collaborative power of educational technology in the classroom.

## Leadership and Management SIG

14:00 – 16:30

### SCHOOL MANAGEMENT: PATHS AND POSSIBILITIES

#### FACILITATORS/SPEAKERS:

Bruna Caltabiano, Christina Riego, Rafael Reis and Sergio Monteiro

#### PCI OVERALL AIM:

School management is challenging. For one thing, most of the managers used to be teachers and lack experience in management. In addition, materials and courses on managing language institutes are somehow rare.

The purpose of this PCI is to raise questions concerning school management and discuss possibilities considering different layers of management, abilities managers have and the ones they need to develop, and how academic knowledge helps in managerial functions, among others.

## Teacher Development SIG

10:30 – 12:30  
and  
14:30 – 16:30

### TRENDS IN TEACHER DEVELOPMENT IN BRAZIL

#### FACILITATORS/ SPEAKERS:

Edmilson Chagas, Fred Azevedo, Graeme Hodgson, Henrick Oprea, Higor Cavalcante and Jeff Stranks

#### PCI OVERALL AIM:

Penny Ur once said that there is a great difference between having twenty years' experience and one year's experience repeated twenty times, and we agree. Being a professional teacher involves many different aspects, and in this PCI we'll discuss several of them, such as: which courses to take, what books to read, the importance of lesson observation, how fun (and vital!) it is to take part in teaching conferences, language development for teachers, and much more.

# 15th BTIC TEACHERS' ASSOCIATIONS FORUM PROGRAMME

### July 17<sup>th</sup>

11:00-12:30

TA Forum **discussion session 3**  
conclusions and ongoing projects

### **APIES President**

---

**Neise C. Rodrigues**, M.A., retired professor from Espírito Santo Federal University. In 1990 she started ES Teachers' association.

### **APIES President**

---

**Paulo Torres** has been in ELT for 20 years. He is an English teacher at Prefeitura Municipal de Vitória.

### **APLIERJ President**

---

**Janaina Cardoso**, DipRSA, Doctor in Language Studies, UERJ Professor (English Language and Linguistics), CAPES Researcher.

### **APLIESP President**

---

**Jaime Cará** is the coordinator of Educational Technology for CNA Headquarters, a post-graduation professor at Universidade Metodista, a doctoral researcher at USP, and the author of a book, articles, materials for teachers, apps, games, and online courses.

### **APLITINS President**

---

**Rosana Maria Martins Fernandes Moraes** works for the Diretoria Regional de Educação de Araguaína/TO, where she coordinates all the programmes related to English language.

### **APLIEMT President**

---

**Lyssa Goncalves Costa** is an English and Portuguese teacher, working with High School and Undergraduate course's students, did a Master on Teacher's Continued Education, and along with APLIEMT develops materials and events for English teachers of Mato Grosso.

### **APLIEPAR President**

---

**Alexandre Stein** has been involved in ELT since 1995 and currently teaches English at Cultura Inglesa Londrina.

### **APIRS President**

---

**Maria Valésia Silva da Silva** is a professor and coordinator PIBID-Ingês at UCS (English language and Practicum), and Master in Second Language Acquisition-UFRGS.

### **BRAZ-TESOL Advisory Council member**

---

**Sara Walker** is a former president of BRAZ-TESOL and a passionate believer in the work of English Teachers' Associations.

14<sup>th</sup> JULY

**DENISE MARTINS DE  
ABREU-E-LIMA**

## **Languages without Borders: building a foreign language policy towards internationalization**

Given the need for internationalization of Higher Education, the Ministry of Education of Brazil launched the English Without Borders (EwB) Program in 2012 in order to help universities to improve the level of English proficiency of their academic community. EwB supports government programmes of academic mobility, such as the Science Without Borders (SwB) Program, among others, in the development of language skills of students in Brazilian universities, especially those in public institutions. In addition to its role in contributing to international mobility, EwB also acts as a teacher training program focused on improving the teaching of academic English, with the support of teacher educators across its network of partner universities. This presentation aims to explain the strategies designed by EwB, the challenges faced along the implementation, and the outcomes and opportunities to the Applied Linguistics field as well as to the English teaching career.

15<sup>th</sup> JULY

**YILIN SUN**

**SPONSORED BY TESOL INTERNATIONAL**

## **Co-constructing English teaching and learning through globalization**

The 21st century ELT field is diverse, complicated, multifaceted, and glocal. What can ELT educators do to maximize learners active participation in the learning process? How can we as ELT educators best utilize opportunities to stay current in the globalized ELT field? This keynote session will focus on issues and strategies to empower ELT educators and learners in the process of co-constructing English teaching and learning in the 21st Century. The speaker will also discuss the roles and the responsibilities of non-native English speaking ELT professionals in our changing global TESOL field.

## CHRIS LIMA

SPONSORED BY THE BRITISH COUNCIL

### Shakespeare lives in the English language

Shakespeare is undoubtedly the most famous and celebrated English writer. His work has been translated into almost every language, his plays are performed by theatre companies around the world, and he is the author with the largest number of Hollywood film scripts to his name. Yet, it has been argued by many that his language and writing style are 'too difficult', 'too old-fashioned' to be of relevance to both native and non-native contemporary speakers of English. Understandably, such perceptions create considerable resistance to bringing Shakespeare to the ELT classroom. In this talk, I will look at the extent to which the English we use today is permeated by Shakespeare's language, discuss reasons for its perceived difficulty, and argue for an approach to the teaching of Shakespeare that explores the dialogic relationships between his work, his language, and our understanding of the world around us. I will argue that Shakespeare's language is at the same time easier and more difficult than our preconceptions, and that understanding where the source of the challenge lies can help raise learners' language awareness, increase their ability to deal with unfamiliar grammar and vocabulary, and contribute to their confidence to use language creatively.

COMMERCIAL PRESENTATION

## Working with teenagers self-esteem

An important issue for many teenagers is the development of their self-esteem and this has an impact on learning. But what constitutes self-esteem? What kind of thinking or activity will aid its development? This session discusses how the authors of the new CUP teenage course "Think" approached the matter.

Room 101

## TALK

## 37 years pedagogical bugbears

As a regular observer and trainer throughout Brazil, I continually see teachers fall into the same 'traps' again and again. In this lively, highly practical workshop, I'll share my observations and suggest a series of simple pedagogical 'tweaks', which can easily improve our day-to-day teaching. Largely ranging on aspects of inherited, habituated practice and class management, areas in focus will range from 'golden oldies' to more 'high-tech' options like digital books and e-boards.

TALK

## Reflections on extra benefits of language learning

The aim of this session is to reflect on the contribution of teaching/learning English as a Foreign Language from the perspective of Integral Education. 1) brain expanding: If so, how?; 2) cultural acquirement: Is it a buy one get two deal?; and 3) self-improvement: is it a myth or fact?

TALK

**Teacher growth: developing skills  
to teach efl to senior students**

Teaching EFL to senior students has been a career-altering experience. Our beliefs were questioned and we discovered a need for continuous professional growth to address the challenges our students face in the classroom. This session is meant to discuss adjustments made to programs, materials we use and teachers' improvement.

**Room 7**

Methodology

48

**Marcello Sousa**

TALK

**More than a teacher:  
class manager**

This presentation aims to help teachers reflect on classroom management practices. Effective classes rely on the teacher's ability to conduct the first and last moments of a class. Once practical tips are discussed, teachers will be encouraged to exchange their own experience.

**Room 8**

Teacher Development

97

**Janaina Cardoso***Universidade do Estado do Rio de  
Janeiro / APLIERJ*

TALK

**Participatory action research:  
social research for educational  
transformation**

This presentation discusses the application of participatory action research to educational contexts, and exemplifies with a project in which learners help their classmates who have a lower level of English, by applying technological tools. The idea is not only to focus on language development, but learning strategies awareness as well.

**Room 9**

Teacher Development

94

**Peter Leamy***Casa Thomas Jefferson*

TALK

**It all makes sense:  
a logical approach to ELT**

We often teach our students rules, which despite being accurate, sometimes do not seem to have a logical basis. This presentation uses applied logic to seemingly illogical instances of grammar, writing and pronunciation, in order to create better understanding and satisfy the age-old student question: "Why is it like this?"

**Room 10**

Methodology

25

TALK

**Interactive projects using videogames and Makey Makey**

Video games are a source of entertainment for people of all ages. Learn how to take advantage of the attractiveness posed by these games and create projects that encourage students to use the language in a meaningful, motivating and natural way.

**Room 107**

Makers & Hackers

124

*Berttoni Licarião  
Cultura Inglesa 310 Norte*

WORKSHOP

**Developing students' autonomy: a new approach to role-playing**

This workshop will present a new approach to the use of role-play in the EFL classroom, as part of its routine. Inspired by the roles of Literature Circles, it will provide teachers with an effective tool to enhance students' performance in groups of children, adolescents and adults at all levels.

**Room 108**

Classroom activities/dynamics

110

*Hulgo Pereira  
Cultura Inglesa S/A*

WORKSHOP

**Technology used for preparatory courses: think outside the box**

This presentation aims to demonstrate how coursebook exam-centred exercises can be brought to life with the help of technology. By using tablets and phones to enhance coursebook exercises, we can encourage student autonomy, challenge students to stretch their language, and make the activities more enjoyable.

**Room 11**

English For Specific Purposes

88

*Rosemere Damasio Bard  
Freelancer*

WORKSHOP

**Game jamming with learners of English**

How can we bring teenagers' voice into the teaching game? By creating a space for game design and play where student work on tasks that make sense to them while resourcing to English will develop language knowledge and skills as well as fostering collaboration, communication and a community of learning.

**Room 12**

Teenagers

**90****Klaus Hedegaard**  
*Envision English***WORKSHOP****From doodle to dare? Using drawing in language teaching**

Most teachers do not fully explore the board. Low opinions of own drawing skills, poor use of space and misconceptions about the subject are the most common reasons. This session aims to explore simple drawing and design techniques, and suggest activities, enabling teachers to engage learners in new, inspiring ways.

**Room 13**

Teacher Development

**131****Eliane Lima & Celina Rebouças**  
*Casa Thomas Jefferson***WORKSHOP****Smartphones spicing up classes for adults**

This is a hands-on session that intends to show teachers how useful and practical may the use of smartphones be when teaching adults. Presenters will provide educators with some sample activities that will make lessons more dynamic and motivating by connecting adults with technology and their own gadgets

**Room 14**

E-Learning/Technology

**98****Vanessa Ferreira**  
*Colégio Guilherme Dumont Villares***WORKSHOP****Make time work for you: handy activities for children**

Since children's attention span is quite short, variety is a must. This workshop aims at presenting handy activities and games which demand very little preparation time by the teacher. Used with different purposes such as presenting, practicing or revising language, the tasks are easy to be planned and prepared.

**Room 16**

Classroom activities/dynamics

**300****Andreina Espana**  
*Macmillan do Brasil***WORKSHOP****Tackling teen issues: learning life skills with Go Beyond**

Secondary school students need to transfer the English they learn in the classroom to realistic life contexts. The life skills lessons in the book series Go Beyond will be demonstrated using a case study approach to teen issues. This session focuses on developing critical thinking for academic and life situations.

**Room 201**

University of Caxias do Sul  
*Marcia Zambon*

*Language Program, University of Caxias do Sul/ PIBID-English/UCS*

TALK

**The voice of pibid-inglês/ university of caxias do sul**

The presentation aims at sharing the experiences at Programa Institucional de Bolsa de Iniciação à Docência-Ingês (PIBID-Ingês) of the University of Caxias do Sul at Santa Catarina Public School about structure and development activities developed, according to the school needs and the benefits for the learning community.

**Room 1**

Teacher Development

164

*Peter Leamy*  
Casa Thomas Jefferson

TALK

**Write right in exams**

In general, English proficiency exams contain a writing component in which language ability is obviously tested. However, testers can earn or lose marks for the structure organization and cohesiveness of their composition. In this presentation, we look at the best structures and language for exam writing in real life.

**Room 2**

Skills: writing

**226***Tássia Trajano  
Wise Up***TALK****Blending or flipping the classroom**

In the digital era, teachers need to cope with changes that affect the way we teach. Two paths that have been strongly adopted by teachers all over the world are blended learning and the flipped classroom, but most of us feel insecure while choosing the best path to follow.

**Room 3**

E-Learning/Technology

**166***Juliana dos Santos  
Voltan Costa  
ACTUS IDIOMAS***TALK****How to teach multi-level classes**

A great deal of responsibility is transferred to teachers and students see themselves as spectators in the learning process. However, in multi-level groups students are encouraged to take responsibility in this process. This talk will explore how teachers can motivate students to be autonomous planning a successful multi-level class.

**Room 4**

Methodology

**259***Fernando Najera***TALK****Virtual sessions motivating students through an online cross-cultural program**

A virtual Language Exchange Program is an online cross-cultural language program that gives students unique 21st century skills and the 7 C's, such as speaking abilities, critical thinking, cross-cultural communication, and a globalized understanding of other ways of living around the world.

**Room 5**

E-Learning/Technology

**113***Arizio Sweeting  
The University of the  
Sunshine Coast***TALK****Researching teachers cognitions towards a multimodal pronunciation teacher**

The renewed interest in pronunciation has raised questions about whether teacher training is providing teachers with multi-modal skills for pronunciation instruction. This paper reports on a qualitative study on teachers' cognitions regarding pronunciation and pronunciation instruction as to suggest ways in which teacher training programmes could enhance their pronunciation syllabus.

**Room 6**

Pronunciation

15:15

83

17

Sunday

**121****Waniston Celeri***Secretaria de Educação da Cidade  
do Rio de Janeiro***TALK****Favela voices: underprivileged kids going bilingual in Rio de Janeiro**

Dois + dois = four. This presentation aims to provide some figures on the bilingual education in Brazil, as well as review some cognitive aspects of bilingualism and share some motivation on the teaching of English by shedding light on achievements in a bilingual education program for kids in deprived areas.

**Room 7**

Bilingual education/CLIL

**56****Fernando Sobral***Universidade de São Paulo***TALK****Still just flashcards and vocabulary notebooks?**

Lexis has always been a key aspect in ESP. Identifying and narrowing down specific vocabulary, as well as designing lexis-oriented tasks, can be time consuming for instructors. In this presentation, participants will learn (with apps and social networks) techniques for building, storing and practicing the language their students need.

**Room 8**

English For Specific Purposes

**128****Sergio Luiz de Moraes Ferreira***Freelancer***TALK****Do our efforts to help learners actually curtail their growth?**

Finding the balance between providing help, facilitation and scaffolding, and allowing students to try things out on their own so they can develop their independence is not an easy task. Can help ever get in the way of learning?

**Room 9**

Classroom activities/dynamics

**269****Yomaira Angélica Herreño***Universidad Santo Tomás  
(Colombia)***TALK****Strengthening students' legal argumentation skills through problematizing newstelling**

This presentation aims at sharing with the attendance preliminary insights about the implementation of problematizing news telling as a pedagogical strategy to strengthen Legal Argumentation in English. Thus the attendance will familiarize with the scope of activities scenarios and situations intended to foster analytical critical and argumentative competences in English

**Room 10**

English For Specific Purposes

**John Evar Strid**  
*Northern Illinois University*

TALK

## The myth of the critical period hypothesis

In culture student papers, language conferences and even some linguistics textbooks the Critical Period Hypothesis is presented as factual despite still being fiercely debated in academic literature. This talk will review what evidence exists for the hypothesis and how to overcome how its wide acceptance reinforces resistance to learning languages.

**Room 106**

Psychology of Education

74

**Ricardo Barros**  
*Freelancer*

TALK

## Teaching pronunciation with TV series

Pronunciation is often taken for granted by teachers. This presentation will show how to include pronunciation work in lessons through the use of snippets from TV series. Activities with snippets to be used with different levels will be presented together with ideas for teachers to develop their own activities.

**Room 107**

Pronunciation

272

**Nancy Harriet Lake**  
*Cambridge English Assessment*

WORKSHOP

## Understanding exams step by step: motivational feedback for achievement

Participants will examine three scenarios in which motivational feedback can be applied towards effective learning and achievement: learners seeking to improve their employment status, corporate clients and developing teachers. We will examine how language exams enhance the process of making feedback more effective by giving practical criteria which motivate improvement.

**Room 108**

Testing/Assessment

258

**Claudia Boni**  
*Escola Móbile*

TALK

## Around the world

The Idea of teaching students other cultures is fascinating. Giving them the opportunity to get in touch with different parts of the world is what this project is about. It gets even better when they can do that while learning English.

**Room 11**

Young Learners

**13****Valdemir Pinto**  
*Federal Institute of Brasília - IFB***TALK****The challenge of stimulating critical literacy in an ESP class**

Although ESP is widely known for the focus on professional contexts and teaching to students from technological fields, it is possible to stimulate critical literacy throughout those classes. The experience taken from this challenge in classes at IFB - Ceilândia will be shared with the audience for reflection.

**Room 12**

English For Specific Purposes

**247****Thiago Veigga**  
*Estude Inglês!***TALK****The teacher trainer within: reflections on becoming a trainer**

This talk will explore how a teacher trainer is born and possible steps to become one. I will also analyze practices that aim at development, such as lesson observation, feedback sessions, certificates and diplomas. I will be talking in more detail about how such practices may be counterproductive at times.

**Room 13**

Teacher Development

**251****Cássia Nakanishi**  
*Colégio Seríus***TALK****Boosting students' autonomy**

This talk aims to present and exchange ideas that can help boost students' autonomy in their language acquisition. Giving students leeway to whether use this or that word is essential to empower them into their own learning process, and our role as teachers is to guide them through their choices.

**Room 14**

Language: Grammar/Lexis

**315****Daniele Vecchiotti**  
*Black Cat Publishing***COMMERCIAL PRESENTATION****The greatest writers can be great teachers of English too!**

Masterpieces of literature, when properly graded, are great ways to acquire and practise English and to become acquainted with the cultural icons of the English-speaking world. So why not let the likes of Shakespeare and Dickens teach us the language too? After all, they already teach us about life!

**Room 16**

## ACKNOWLEDGMENTS

The organisation of an event on the scale of the 15th BRAZ-TESOL Conference is something that takes at least two years between the planning process and its actual execution. It involves a number of people and a number of hours holding meetings and discussing possibilities

until the actual outline of the conference begins to emerge. Yet, once it does, this seems to give all involved a tremendous amount of energy and drive.

Those who are more immediately involved in the thinking behind the Conference are the Executive Board Members, Henrick Oprea, Higor Cavalcante, Adriana Lima Stranks and Marcelo Barros, who participated in the detailed discussions and decision taking right from the start. Yet, because we enjoy working together, in so many moments the Advisory Council was called upon and has provided direct and immediate support and to this end I need to thank Jeff Stranks, Virginia Garcia, Graeme Hodgson, Fernando Guarany, Veruska Galo and Damian Williams. However, no conference organisation is possible without the invaluable support of our ex-President Sara Walker, who so cleverly designed and organised the TA Forum which is going to be held.

Yet we all know that almost nothing is possible without the invaluable daily support of Claudia Cavalcante and Marlene Justino at the BRAZ-TESOL office. Their dedication and work are magnificent.

We have also counted on the support of the Academic Committee, with Adriana Lima Stranks, our marketing specialist, Isabella Villas Boas, Marcela Cintra, Carla Arena and Henrick Oprea. In the decisive moments of proposal reading, you helped to do the tricky work, alongside all our proposal readers. I also counted on the support of Higor Cavalcante for programme reading and checking.

We also need to say a super thanks to Veruska Gallo and her team of Minders. The Minders play an essential role in the perfect “flow” of the conference and we are indebted to their level of collaboration and dedication.

We are very grateful to Colégio Serios for allowing us to hold the Conference in their school and it has been a pleasure to work with an educational institution which shares the same values and beliefs that BRAZ-TESOL does.

Sincere thanks are also due to all our sponsors, and in particular to the major supporters. We cherish the partnerships we have built over the years and are happy to be able to share an event like this one with you all.

### Final thanks to:

Antonio Carlos da Silva for his work on the Conference site; Carolina Simionato for the program design, the conference logo, signs, certificates and so much more; and Camille Marcatto for the conference layout and infra-structure.

Thank you once again and it has been a honour and pleasure to work alongside all of you.

# THOMAS SOLUTION FOR SCHOOLS

www.thomas.org.br  
(61) 3442.5500

If you own or manage a school or language institute and would like a complete learning solution offered by one of the leading EFL Institutes in Brazil, check out our Thomas Solution for Schools. We offer different types of solutions based on the institution's needs:

- English program within the regular academic program
- After-school program
- Bilingual program
- High school program in Brasilia in partnership with Griggs International Academy
- English camps
- Other types of customized programs

Our solution encompasses all the pedagogical and managerial elements you need to offer a high-quality and reliable program, with the best ELT materials and customized complementary materials, assessments, teacher training and development, and teacher supervision.

For more information, contact

# Bring the WORLD to the CLASSROOM and the CLASSROOM to LIFE

At National Geographic Learning, we believe that an engaged and motivated learner will be a successful one, and we design our materials to motivate. We believe that learning can be exciting, inspiring, and transformational. Through our learning programs, we want learners to experience the excitement and joy of learning that National Geographic explorers, scientists, writers and photographers experience. We share real stories from National Geographic that increase learners' knowledge of the world and everything in it. We illustrate these materials with stunning National Geographic photography, video, and illustrations that bring the world to the classroom and the classroom to life.

# CAPACITAÇÃO DE PROFESSORES DE INGLÊS

Soluções customizadas do British Council para você investir em seus profissionais de ensino do idioma

Atuando globalmente em mais de 100 países, o British Council é o mais conceituado provedor de capacitação na área de ensino de língua inglesa, com treinadores recrutados entre os melhores profissionais da área.

Estimule o desenvolvimento profissional dos seus docentes e garanta para sua instituição uma importante vantagem competitiva, que contribuirá para apoiar os esforços de captação e retenção de alunos.

## Alguns de nossos programas:

**Starting Teaching** – curso de curta duração para professores iniciantes

**TKT Essentials** – introdução às teorias básicas associadas a uma abordagem comunicativa de ensino da língua

**English for Teaching** – uma combinação de língua inglesa para todos os níveis de conhecimento e estudo de metodologias de ensino

**Training for IELTS trainers** – curso para professores que irão atuar na preparação de alunos para prestar o exame IELTS

**Technologies for the Classroom** – introdução aos principais aspectos do uso de novas tecnologias em sala de aula

 BRAZ-TESOL

It's the 30th anniversary of BRAZ-TESOL and have we got news for you. You bet we have! A completely new **digital program**. You'll be able to see not only everything that's in this booklet, but also:

- Presenter bios
- Presenter contact information
- Different filters to choose the presentation you want to attend
- An individualised timetable for your convenience

In order to take full advantage of the program, make sure you're using your Gmail account. If you don't have one, you can create one for free.

But that's not all!

- See pictures of the conference live on our **Instagram** profile. If you still haven't followed us, find us at @braztesolbrazil. Selected members of BRAZ-TESOL will be posting pictures throughout the conference
- Have you followed us on **Twitter** yet? Find us there at @braztesol
- Many of our pictures also appear on our **Flickr** account: BRAZ-TESOL

Plus, we're counting on you to make this edition of our International Conference better than ever. Why not contribute with pictures and highlights of the conference on Facebook, Twitter and Instagram using our hashtag: **#btic**?

Finally, if you don't want to type anything, just use your QR Code reader to go straight to the landing page of our digital program.

We recommend downloading some apps to your phone to fully enjoy the experience: Google Sheets, Instagram, Twitter, and Facebook will do.

We hope you enjoy what we've prepared for this special 30-year anniversary of BRAZ-TESOL.
